

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

November 1-15, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 1-15, 2005.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Tuesday, November 01, 2005</u>			
2005051059	Carson Marketplace Carson, City of Carson--Los Angeles The Carson Marketplace Project would develop a 168-acre site with some or all of the following uses: neighborhood commercial, regional commercial, commercial recreation/entertainment, restaurant, hotel, and residential. Specifically, the applicant's proposal consists of a total of 1,550 residential units (1,150 for-sale units and 400 rental residential units), and 1,995,125 square feet of commercial floor area, inclusive of a 300 room hotel.	EIR	12/15/2005
2004081039	South Airfield Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles The City of Los Angeles proposes to construct a new 75-foot wide Airplane Design Group V center taxiway between Runways 7L-25R and 7R-25L at LAX in order to minimize the potential for runway incursions. The addition of the parallel taxiway would require that the southern-most runway, Runway 7R-25L, be relocated in its entirety 55.42 feet to the south of its current location.	FIN	
2005111004	Proposed General Plan Amendment GPA-05-004(A), Zone Change ZC-05-020, Specific Plan S-P-05-001 Victorville, City of Victorville--San Bernardino To allow for the development of a community of 1,000 single-family residential units, a twelve acre school site, two 3-acre park sites and 30 acres of conservation area.	MND	11/30/2005
2005102135	Oakland East 12th Street Residential Project Oakland, City of Oakland--Alameda The proposed project involves the following three key components: * General Plan and Rezoning (46th and 48th Avenue Sites): The project applicant is requesting approval of a General Plan Amendment to change the land use designations for the two project sites from Business Mix and General Industrial/Transportation to Housing and Business Mix. The Housing and Business Mix designation permits a density of 30 dwelling units per acre. A rezoning is also requested to change the zoning of both sites from General Industrial (M-30) to Medium Density Residential (R-50). The selected designations would allow for a maximum of approximately 165 townhome units on the 46th Avenue site and 105 townhome units on the 48th Avenue site. * Final Planned Unit Development Approval (46th Avenue Site): The project applicant is requesting approval of a Planned Unit Development plan for the 46th Avenue site. The plan provides for the development of approximately 145 townhome units. * Preliminary Planned Unit Development Approval (48th Avenue Site): The project applicant is requesting approval of a preliminary Planned Development Unit for the 48th Avenue site. The site would be developed similar to the 46th Avenue site, with approximately 105 two- and three-story townhomes. Total residential density of the development would be 28 to 30 du/ac. 	(Conservation Regulations), ECPAs are required for agricultural projects involving grading and earthmoving activities on slopes over 5 percent. Napa County is responsible for approval of the ECPA pursuant to Chapter 18.108 of the Napa County Code. The project is designed to minimize impacts to water quality and environmental effects in accordance with 18.108.070 and 18.108.027 of the County Code. For CEQA purposes, the project under consideration is the earthmoving and/or grading activities occurring on slopes greater than 5 percent and installation of the ECP.		
2004082022	Interstate 680 HOV and Auxiliary Lanes (Sunol Grade Northbound) Caltrans #4 Milpitas, Fremont, Pleasanton--Alameda, Santa Clara A northbound high occupancy vehicle (HOV) lane extending from the I-680/SR-237 interchange to SR-84, and five auxiliary lane segments extending from the Jacklin Road on-ramp to the Mission Boulevard/SR-238 off-ramp will be constructed. The southbound roadway will also be widened at two locations: (1) between the Andrade Road interchange and the Calaveras Road interchange, and (2) at the Sheridan Road interchange. Ramp metering equipment will be installed at fourteen northbound on-ramps beginning at Calaveras Boulevard and ending at Stoneridge Drive. Existing bridges will be widened. Sound barriers and retaining walls will also be constructed as necessary. The objective is to encourage carpooling and transit use through the HOV lane incentive and reduce congestion by providing more maneuvering room near high volume on/off-ramps.	NOD	
2004112097	Lake of the Pines Wastewater Treatment Plant Upgrade Project Nevada County Department of Sanitation --Nevada Upgrade of WWTP facilities to provide water to existing and future customers. Includes installation and maintenance of an enhanced sewage treatment process, UV disinfection, sludge digesters and storage tank, new buildings for an emergency generator, centrifuge and offices, and additional on-site piping and parking spaces.	NOD	
2004121045	EIR for Platinum Triangle Master Land Use Plan and Associated Actions Anaheim, City of Anaheim--Orange The proposed project consists of the following actions associated with The Platinum Triangle Master Land Use Plan: 1. Certification of Subsequent EIR No. 332 to serve as the primary environmental document for subsequent actions to implement the adopted Platinum Triangle Master Land Use Plan, the Platinum Triangle Mixed-Use (PTMU) Overlay Zone and The Platinum Triangle Standardized Development Agreement. Implementation is intended to include, but not be limited to, the approval of subdivision maps, grading permits, street improvement plans, final site plans, development agreements and other related actions, for properties located within The Platinum Triangle. Future developments that require additional discretionary review will utilize this document for CEQA purposes to the extent possible, consistent with Section 15162 of the CEQA Guidelines. This SEIR is also intended to provide the additional environmental documentation for proposed City-initiated amendments to the General Plan, The Platinum Triangle Master Land Use Plan, the PMTU Overlay Zone and the Standardized Platinum Triangle Development Agreement described below. 2. Approve the Water Supply Assessment for The Platinum Triangle, in accordance	NOD

with Section 10910 of the California Water Code;

3. Approve General Plan Amendment No. 2004-00420 to amend the City of Anaheim General Plan Land Use and Circulation Elements as follows:

(a) To amend the Land Use Element to redesignate a 3.21-acre property located at the southeast corner of Orangewood Avenue and Rampart Street and further identified as 2400 East Orangewood Avenue ("North Net Fire Training Center") from the Office-High to the Mixed-Use land use designation; and provide for an additional 325 dwelling units and up to 210,100 square feet of additional commercial square footage in The Platinum Triangle Mixed-Use land use designation. This amendment would increase the maximum overall residential density from 9,175 to 9,500 dwelling units and the maximum overall commercial density from 2,044,300 to 2,254,400 square feet.

(b) To amend the Circulation Element to redesignate a portion of Cerritos Avenue between State College Boulevard and Douglass Road from a Primary Arterial Highway to a Secondary Arterial Highway and to provide for Gene Autry Way between State College Boulevard and Betmor Lane to be up to 115 feet in width.

4. Amend the Platinum Triangle Master Land Use Plan to incorporate the following: an adjustment to the boundaries of the mixed-use districts to include the North Net Fire Training Center site in the PTMU Overlay Zone Gateway District and add 325 units to said District (321 of said units would be designated for the North Net Fire Training Center site); a modification to the PTMU Overlay Zone commercial density to add 210,100 square feet of additional commercial square footage (190,100 square feet of this square footage would be designated for future required ground floor commercial uses on Market Street and Gene Autry Way in the Katella and Gene Autry Districts and 20,000 square feet for other commercial uses in the Katella District); and, additional technical refinements and clarifications, including, but not limited to, refinements to street cross-sections and density descriptions to reflect the above-noted changes;

5. Amend Chapter 18.20 (PTMU Overlay Zone) of Title 18 of the Anaheim Municipal Code relating to zoning and development standards (Zoning Code Amendment No. 2004-00036) to incorporate the following: an adjustment to the boundaries of the mixed-use districts to include the North Net Fire Training Center site in the PTMU Overlay Zone Gateway District and add 325 units to said District (321 of said units would be designated for the North Net Fire Training Center site); a modification to the PTMU Overlay Zone commercial density to add 210,100 square feet of additional commercial square footage (190,100 square feet of this square footage would be designated for future required ground floor commercial uses on Market Street and Gene Autry Way in the Katella and Gene Autry Districts and 20,000 square feet for other commercial uses in the Katella District); and additional technical refinements and clarifications, including, but not limited to, refinements to density descriptions to reflect the above-noted change and other City Code requirements;

6. Amend the form of The Platinum Triangle Standardized Development Agreement (Miscellaneous Case No. 2005-00114) to reflect mitigation measure requirements set forth in the Updated and Modified Mitigation Monitoring Program No. 106A, editorial refinements and updated fees;

	7. Rescind, in-part, City Council Resolution No. 2004-180 to reclassify the North Net Fire Training Center site from the PR (Public Recreational) to the O-H (High Intensity Office) Zone (Miscellaneous Case No. 2005-00115) and approved Reclassification No. 2004-00134 to reclassify said site from the PR to the PR (PTMU) Zone.		
2004121045	EIR for Platinum Triangle Master Land Use Plan and Associated Actions Anaheim, City of Anaheim--Orange The proposed project consists of 2,681 residential dwelling units and approximately 150,000 square feet of retail/commercial use on approximately 41.4 acres.	NOD	
2005012015	Special Use Permit S04-0031 El Dorado County Planning Department Placerville--El Dorado Establishment of a wireless telecommunications facility to include ground-mounted equipment and a 70-foot tall tree pole with 12 panel antennas.	NOD	
2005042011	S04-0036 / AT&T Wireless Arroyo Vista Monopine El Dorado County Planning Department --El Dorado Replacement of an existing single-user monopole with a multi-tenant monopine telecommunications facility to include ground-mounted equipment and an 80-foot tall tree pole with three sets of antenna arrays.	NOD	
2005081166	Alcatraz Creek Erosion Control Project Santa Barbara County Goleta--Santa Barbara The Operator proposes to alter the streambed to repair erosion damage to the mouth of Alcatraz Creek to protect the Gaviota Terminal, an Arguello petroleum facility. The forebay facility, which includes electrical equipment, piping and pumps for salt water intake to the desalination plant, is in danger of being undermined and sea water may enter the underground storage area. The area is also an archaeological site. Rock rip-rap will be placed along the banks with large rock at the toe of the bank. The eroded areas of the creek will be filled with soil compacted to 90% under the rock rip-rap. Cultural deposits will be covered with a geo-fabric prior to the fill. A temporary concrete apron will be poured between the rock rip-rap and the culvert road crossing. The crossing will be replaced with the addition of a metal culvert, replacing an old brick culvert. The portion of intact brick culvert will be sealed with concrete, and the broken pieces shall be removed. Rock which was used for a temporary repair will be collected and used to protect the area which is in the surf/tide line.	NOD	
2005082133	Lake Wildwood Wastewater Treatment Plant Improvements 2006 Nevada County --Nevada Nevada County Sanitation District No. 1 is proposing minor improvements to the Lake Wildwood Wastewater Treatment Plant to comply with NPDES permit requirements, including an equilization basin, headwork building, new administrative building, lining of sludge storage basin, minor road paving, and other miscellaneous improvements. 2005118025	Streambed Alteration Agreement (1600-2005-0613-R5) Regarding the Joint Outfall "B" Unit 1 Trunk Sewer, Section 2 Protection Project Fish & Game #5 Whittier--Los Angeles The Operator proposes to alter the streambed and banks of an unnamed tributary to the San Gabriel River by repairing and reconstructing a sewer pipeline by the placement of approximately 500 cubic yards of fill and 3,000 cubic yards of riprap on and around an unearthened sewer line. The pipe was unearthened during flood conditions that occurred in early to mid 2005. The fill and rip rap will be placed on and around the unearthened sewer line to prevent future erosion and rupture of the pipe line. A temporary access ramp will be required for the repair of the sewer and the Rosemead Blvd Bridge. (Note: the Bridge repair is being conducted by Caltrans under a separate agreement, i.e., # 1600-2005-0663-R5). The access ramp is estimated to be 300 ft. in length with a total area of 0.14 acre and requires approximately 1,700 cubic yards of fill material to be brought in. The access ramp is a temporary impact. Permanent impacts are 0.3 acre (160 linear feet). The County Sanitation District No. 2 Los Angeles will construct the access ramp and leave the ramp for the Caltrans construction crew, and Caltrans will have the responsibility for removing the ramp upon completion of their project and return the area to the pre-existing conditions or better (Streambed Alteration Agreement No. 1600-2005-0663-R5). The proposed repair project will stay within the original footprint and at no time will any native vegetation be damaged or destroyed.	NOE

	Palm Avenue in the City of Highland, San Bernardino County. The sight is near the southeast corner of Section 4 of T1S, R3W SBM as shown on the USGS - Redlands Quadrangle 7.5 minute series topographic.		
	Water produced at EVWD's Well 40A occasionally contains uranium concentrations that exceed the state standard of 30 ug/l. The proposed project is the construction and operation of the Well 40A Resin Ion Exchange system. Water from Well 40A will be pumped through the resin ion exchange unit where the uranium will bind with the resin, thereby allowing the water leaving the unit to meet the California Department of Health Services Drinking Water standards for use in the EVWD's system. During the initial start-up of the facility, water from the treatment unit will be pumped into mobile storage tanks and sampled. At this time it is forecast that water pumped to the tanks will be delivered to the District's surface water treatment facility located adjacent to City Creek just northerly of Highland Avenue for treatment and blending. It is also possible that the test pump water, if of acceptable quality, will be discharged as surface flow from the site.		
2005111016	Pleasant Valley Elementary School Hemet Unified School District Hemet--Riverside The Hemet Unified School District (HUSD) proposes the construction and operation of a new 750 student elementary school on a 10-acre campus. The new school would serve students from kindergarten to grade five, and is intended to accommodate the student population generated as a result of the new residential development in the project area. The School would generally be comprised of four buildings (including multi-purpose, administration, maintenance and classroom buildings), a parking lot, a bus loading roundabout and recreational areas. The new school is scheduled to being operations in fall of 2008.	Neg	12/02/2005
2005112033	Phase 3 @ Hiddenbrooke Vallejo, City of Vallejo--Solano 70 unit single family detached sub-division on an ~41.3 acre site. The residential component of the project would be constructed on ~12 acres with the remainder of the site acreage being dedicated for open space. Included in the proposal is a staging area for the Greater Vallejo Recreational District providing public parking and facilities for a proposed hiking trail.	Neg	12/08/2005
1983030805	EXXON SANTA YNEZ DEVELOPMENT California State Lands Commission OFFSHORE SANTA BARBARA COUNTY--SANTA BARBARA The applicant will alter the streambed while repairing storm damage to two access roads to Las Floras Canyon Facility, one along Corral Creek, a year round stream, and the second along the emergency road in Venadito Canyon. Slope damage occurred about 1/4 mile north of the entrance gate along Corral Creek, where the road was undercut along a 125 foot section. Repair consists of a gabion wall placed above the 100 year flood line, with ungrouted rock rip-rap below the gabions to form a support for the wall.	NOD

2004061135	Los Banos Rail Corridor Master Plan Los Banos, City of Los Banos--Merced The proposed project would provide direction for land use to ensure future implementation of community goals as included within the plan. The project includes a General Plan Land Use amendment and parallel zoning reclassification for consistency, which would change the designated land uses to achieve mixed-uses. The goal of the project is to promote the continued economic development of downtown Los Banos by planning for commercial opportunities, multi-family residences, community space, recreational amenities and overall mixed-use development. Such improvements would increase the attractiveness and utility of downtown and provide interconnected access through the City's core.	EIR	12/19/2005
2005021055	Police Headquarters Facility Plan Los Angeles, City of Los Angeles, City of--Los Angeles Construction of 500,000 sf police headquarters facility with underground parking, off-site parking facilities, 28,000 sq. ft. motor transport division, and 2-story, 60,000 sq. ft. recreation center.	EIR	01/02/2006
2005071115	John Vander Poel Dairy / Bar VP Dairy Tulare County Resource Management Agency --Tulare Special Use Permit (PSP 00-077) to expand on existing dairy, and 04-118 to construct and operate a new 3,200 Holstein milk cow (plus support stock) dairy on 917 acres in agricultural area of Tulare County approximately 4 miles southwest of Pixley.	EIR	12/19/2005
2005111021	Boulevard Apartments San Diego, City of San Diego--San Diego The project proposes to demolish two existing buildings; one 1-story and one 2-story wood frame buildings on a 10,650 square foot site and construct a 34,763 square-foot four-story building with a three-story apartment building over a first floor office and garage. The first floor would consist of a 2,063 square-foot office and a 6,786 square-foot parking garage. Twenty-four residential (for rent units with affordable units) apartments is proposed on three (each floor is 8,638 square-feet) floors. The roof level would include a barbeque area with picnic tables beneath a wood trellis shade structure, and a playground equipment area for children. Approximately 380 cubic yards of cut and 200 cubic yards of fill would be graded. Approximately 180 cubic yards of soil would be exported. The parking proposed is between 17 and 48 spaces at this location.	FON	12/03/2005
2005051161	Sunrise Assisted Living of Fullerton Fullerton, City of Fullerton--Orange The proposed project entails construction of an assisted living facility that will provide care for seniors, including those with Alzheimer's disease and other memory impairments. The proposed assisted living facility will consist of 68 units within a two-story building. The proposed two-story facility, approximately 45,896 sf in size, will be 30 feet in height. 2005119003	EA39551 TR32081/CZ6968 Riverside County Transportation & Land Management Agency --Riverside CZ6968 proposes a zone change from A-1-5 to R-1 and R-1-10,000. TR32081 proposes to subdivide 6.41 acres into 16 residential having 7,200 square foot minimum lot sizes.	NOD	
2005118035	Install Interpretive Display of U.S. House (05-06-SD-17) Parks and Recreation, Department of --San Diego This project consists of the installation of interpretive displays in front of a soap concession, the U.S. House. The building is located in Old Town San Diego State Historic Park, and is a reconstructed historic period building. The displays will include adding decomposed granite providing an even surface for lye barrel and campfire display, addition of a soap mold on a platform, 3 half barrels planted with herbs used in soap making, and 3 interpretive signs on posts which will require an archaeological monitor.	NOE	
2005118036	GPS Monument Parks and Recreation, Department of --San Benito This project will provide for the installation of scientific research equipment at the Hollister Hills SVRA in the Renz buffer, which is closed to the public and OHV use. UNAVCO, Inc. is in charge of the network operations related to installation, operation, and maintenance of Global Positioning Systems (GPS) and Strainmeter instruments within the Plate Boundary Observatory (PBO). The PBO is part of the larger National Science Foundation EarthScope GPS Observatory. This observatory is one of the largest major networks of Research Facilities ever constructed and is of critical importance to understanding the interaction between the continental plates in the western United States. The goal of PBO is to install instrumentation to monitor ground shifts that occur leading up to, during, and after earthquakes. This proposal includes a 10-year renewable land access agreement to UNAVCO Inc. to install, operate, monitor, and maintain the GPS instruments. Installation includes one deep drill braced monument (DDBM) with a DC-battery/solar charged power source that will operate the GPS receiver, antenna, and data communications. These stations can operate self-sufficiently in almost any location, have a surface footprint of 10 ft. x 10 ft., and stand at a finished height of 6 ft. tall. Additionally, a detached enclosure pole would exist within 20-25 ft. of the GPS monument, and has solar panels and an equipment enclosure attached to it. Installation of the DDBM requires a small drilling rig and a 50 ft. diameter working space during construction. A small fence will be installed around the equipment to protect it from cattle that graze in the area. An informational sign will be attached to the fence.	NOE	
2005118037	Plate Boundary Observatory Parks and Recreation, Department of --Los Angeles This project will provide for the installation of scientific research equipment at Hungry Valley SVRA. UNAVCO, Inc. is in charge of the network operations related to installation, operation, and maintenance of Global Positioning Systems (GPS) and Strainmeter instruments within the Plate Boundary Observatory (PBO). The PBO is part of the larger National Science Foundation EarthScope GPS	NOE

	<p>Observatory. This observatory is one of the largest major networks of Research Facilities ever constructed and is of critical importance to understanding the interaction between the continental plates in the western United States. The goal of PBO is to install instrumentation to monitor ground shifts that occur leading up to, during, and after earthquakes.</p> <p>This proposal includes a 10-year renewable land access agreement to UNAVCO Inc. to install, operate, monitor, and maintain the GPS instruments. Installation includes one deep drill braced monument (DDBM) with a DC-battery/solar charged power source that will operate the GPS receiver, antenna, and data communications. These stations can operate self-sufficiently in almost any location, have a surface footprint of 10 ft. x 10 ft., and stand at a finished height of 6 ft. tall. Additionally, a detached enclosure pole would exist within 20-25 ft. of the GPS monument, and has solar panels and an equipment enclosure attached to it. Installation of the DDBM requires a small drilling rig and a 50 ft. diameter working space during construction. A small fence will be installed around the equipment to protect it from cattle that graze in the area. An informational sign will be attached to the fence.</p>		
2005118038	<p>Ramadas Parks and Recreation, Department of --San Benito</p> <p>There are approximately 144 ramadas in the Park within camping and day use areas. They are made of wood and used to provide shade for park users. They are starting to ware out and become safety hazards. The purpose of this project is to replace the ramadas as needed. As a ramada wares out, it will be replaced at the same location with one slightly bigger that conforms to ADA requirements, which will require a greater distance between posts.</p> <p>New dimension and requirements for ADA Ramada's will be as follows: a 12" wide by 18" long cylinder tube for each post is to be filled with 5 sack concrete mix and a strong post tie base #CB 88 to be imbedded in the concrete. The top of concrete is to be 3" above and 15" below ground level. Posts will be bolted (3/4" x 9" carriage) on these bases (total of 4 post). Posts are 8" x 8" x 9" feet tall redwood post. The distance from ground level to the bottom of the first Header cross member (2" x 12" x 12 feet long redwood) is to be 8 feet. Four Header boards will be bolted (3/4" x 12") on the four posts, two at each end of the structure. One Header on the outside and the other on the inside sandwiching the two post on one side. The same installation will occur on the other side of the structure. The second layer will be nailed with galvanized 16d nails. Second layers consist of rafter's 2" x 12" x 16 feet long redwood (a total of 4 each). The rafter's will be sitting on top of the first Header. One rafter will be bolted to the outside of the post on either side of the structure with two in the center. All rafters will be 3'8" apart from each other. Blocking is to be redwood 2" x 12" x 3'6.5" in size. Blocking is to be installed between the rafters in the center and on either end of the structure. Corrugated steel roofing material will be installed with waffle boards under the steel and secured with screws and grommets.</p>	NOE

2005082065	Former Gibson Environmental Facility, Port of Redwood City Redwood City, Port of Redwood City--San Mateo The Port intends to complete closure and remediation activities at the former Gibson Environmental, Inc. facility Site. The 8.9-acre Site was a former liquid bulk terminal that was active between 1963 and 1995 and consists of ten aboveground bulk storage tanks, associated pipelines and ancillary equipment and structures and truck loading facilities. Petroleum- and metal-bearing wastes from facility operations have contaminated the shallow soil and shallow groundwater. CEQA Initial Study and Negative Declaration address the activities identified in the Site Closure Plan and the Corrective Measures Study/Remedial Action Plan (CMS/RAP). The Closure Plan activities generally include the removal of the facility tanks, equipment and structures, and the confirmation sampling beneath the Site Regulated Units. The CMS/RAP addresses soil and groundwater remediation, and closure of the Solid Waste Management Units and one Area of Concern. The petroleum-related contaminants in shallow soil will be excavated and disposed off-site. Following removal of the source of contamination, new groundwater monitoring wells will be installed to monitor the groundwater. Several soil gas monitoring probes will also be installed.	NOD

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, November 07, 2005</u>			
2005118093	"Theta NCT 4" T-P24I-11 (030-28716) Conservation, Department of --Kern Drill a development well within the administrative boundaries of an oil and gas field. The well will be compatible with existing land use.	NOE	
2005118094	2005-142 Administrative Use Permit by NEXTEL of California Calaveras County Planning Department --Calaveras To construct a wireless telecommunications facility consisting of sector antenna panels on a twelve foot extension on top of an existing PG&E transmission tower, and equipment cabinets within a 15' x 25' licensed area under the base of the tower on a 6.1 +/- acre parcel.	NOE	
2005118095	Pfeiffer Falls Trail Bridge Replacement at Pfeiffer Big Sur State Park Parks and Recreation, Department of --Monterey Rebuild bridge on Pfeiffer Falls Trail at Pfeiffer Big Sur State Park that was damaged when a 3-foot diameter redwood tree fell in Spring 2005. The 38-foot bridge will be re-constructed using the same design as the damaged bridge with materials that will be carried into the project area.	NOE	
2005118096	Cotati Commercial Development Fish & Game, Wildlife Conservation Board --Sonoma To accept a conservation easement over 1.36 acres of land for the protection of habitat as a condition of mitigation.	NOE	
2005118097	Confluence Trail Maintenance, Auburn State Recreation Area Parks and Recreation, Department of --Placer Perform routine trail maintenance on the existing Confluence Trail within Auburn SRA. This trail is approximately 6,242 feet in length. This work includes brushing along the trail corridor, removing the berm on the outslope of the trail, clearing soil and other material that has sloughed onto the trail and repairing and clearing existing drainage structures including drainage dips and water bars. All trail work will be completed according to the standards and guidelines in the Department's Trails Handbook. Any areas with sensitive natural or cultural resources will be avoided. Silt fencing or other means will be used where necessary to prevent soil from migrating into drainages.	NOE	
2005118098	Manzanita Trail Maintenance, Auburn State Recreation Area Parks and Recreation, Department of --Placer Perform routine trail maintenance on the existing Manzanita Trail within Auburn SRA. This trail is approximately 6,767 feet in length. This work includes brushing along the trail corridor, removing the berm on the outslope of the trail, clearing soil and other material that has sloughed onto the trail and repairing and clearing existing drainage structures including drainage dips and water bars. All trail work will be completed according to the standards and guidelines in the Department's Trails Handbook and will be undertaken outside the nesting season for species using the area, whenever possible. Any areas with sensitive natural or cultural resources will be flagged in consultation with DPR resource specialists and avoided. Silt fencing or other means will be used where necessary to prevent soil from migrating into drainages.	NOE

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, November 07, 2005</u>			
2005118099	Sweeney Creek Drainage Tributary Outfall Structure Fish & Game #2 Vacaville--Solano The purpose of the project is to improve the conveyance of the existing drainage ditch and reduce the amount of erosion occurring on the north bank of Sweeney Creek from the drainage ditch.	NOE	
2005118100	Sacramento River RM 59.9L Bank Protection / Restoration Maintenance Fish & Game #2 Sacramento--Sacramento Repair approximately 150 feet of river bank with log cylinders, earthen fill, and native plants.	NOE	
2005118101	Mar Vista Agricultural Replant from Eucalyptus Orchard to Vineyard Napa County Napa--Napa The applicant proposes earthmoving activities and implementation of erosion control measures associated with the conversion of an existing +/- 50-acre eucalyptus orchard to vineyard. Approximately 37.25 acres of the existing orchard would be converted to vineyard. The remaining +/- 13 acres would be restored to natural habitat by removal and control of the eucalyptus. The project would occur on land slopes ranging from 7-30%, averaging 18%, within a 148.62 acre holding. The project applicant has prepared an Erosion Control Plan pursuant to Napa County "Conservation Regulations," County Code Chapter 18.108.	NOE	
2005118102	Winter Creek Temporary Stabilization Fish & Game #3 Berkeley--Alameda The project involves construction of a temporary extension at the culvert outfall and 6-8 stabilization structures within the creek channel. Issuance of a Streambed Alteration Agreement Number 1600-2005-0639-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2005118103	"Hondo Peerless" 26R (030-28882) Conservation, Department of --Kern Drill a development well within the administrative boundaries of an oil and gas Field. The well will be compatible with existign land use.	NOE

2005111046	The Commons At Rogge Road Monterey County Planning and Building Inspection Salinas--Monterey Combined development permit consisting of 1) An amendment to the Central Salinas Area Plan Land Use Designation from Medium Density Residential (two units per acre) to High Density Residential (15 units per acre); 2) A zoning reclassification from Medium Density Residential, two units /acre (MDR/2) and Farmlands, 40 acres/unit (F/40) to High Density Residential, 15 units per acre (HDR/15); Standard Subdivision Vesting Tentative Map to divide two existing lots of record into 126 lots of varying size, consisting of 123 single-family residential lots, one apartment lot (48 units); One park parcel and one common area parcel for streets, driveways, public utilities and open space; use permits for removal of one landmark oak tree, parking and a residential use exceeding 10 units per acre.	MND	12/07/2005
2005111040	Residences at Saks Fifth Avenue Beverly Hills, City of Beverly Hills--Los Angeles Parcel A 12,000 sq. ft. of ground floor retail with 20 condominium units above; Parcel B 40 condominium units with commercial parking in the basement.	NOP	12/07/2005
2005111045	Tentative Tract Map No. 33461 Riverside County Planning Department Riverside--Riverside Tentative Tract Map No. 33461 will subdivide 64.7 gross acres into 203 single family residential lots with a minimum lot size of 7,200 square feet. 4.3 acres of the property will be designated for a school site and 3.3 acres will be designated for park use. The school and park lots will be designed and constructed in conjunction with neighboring Tract Map No. 31768. Change of Zone No. 7185 proposes to change the existing zone from A-2-10 to R-1.	NOP	12/07/2005
2005112023	General Plan Amendment, Public Project and Subsequent Permits to Allow Development of the Monterey Highway Sports Complex Project, File Nos. GP05-02-03/PP05-093 San Jose, City of San Jose--Santa Clara The proposed project would change the San Jose 2020 General Plan land use diagram of the site from Agriculture with Coyote Greenbelt overlay to Public Park/Open Space with Coyote Greenbelt overlay to allow the development of a sports field complex for up to 8 soccer fields on land owned by the City of San Jose. The project would allow parking, concession facilities, restroom facilities, a maintenance yard and other ancillary facilities. An entry building, tournament offices and storage facilities would be housed in modular buildings on the site. All of the ancillary facilities would be considered temporary and would not require the installation or development of building foundations. The project, by proposing no permanent structures or expanded infrastructure improvements would be consistent with the provision of the General Plan's Urban Growth Boundary that recognizes the physical, location, and service limitations of the designated South Coyote Valley Greenbelt area. Existing detention basins located on the site and serving the adjacent Ann Sobrato High School would remain. The project also requires subsequent associated permits for the development of the youth sports field complex.	NOP	12/07/2005

1992111025	<p>Revised DJ Farms Specific Plan Guadalupe, City of Guadalupe--Santa Barbara</p> <p>The DJ Farms property consists of approximately 209 acres of land located south of SR 166 and east of SR 1 in the City of Guadalupe. An EIR was previously prepared for the annexation, Specific Plan, and General Plan amendment for the property. The EIR was certified and DJ Farms was annexed to the City in 1995. At the time, the adopted Specific Plan for the area envisioned development of 450 dwelling units and 380,000 sf of commercial and light industrial land phased over a period of approximately 10 years. The Plan has undergone a number of revisions over the past decade.</p> <p>The Revised Specific Plan establishes land uses and development standards that will govern development of the DJ Farms property. The planned development includes 980 dwelling units, approximately 18 acres of commercial land uses, a ten-acre school site and a nine-acre public park. Development will be phased over several years. The proposal includes an agricultural buffer around the perimeter of the plan area intended to reduce conflicts between urban development and farming. The agricultural buffer is proposed to be a minimum 100-foot wide, consisting of a perimeter road and landscaping.</p>	EIR	12/23/2005
2002092065	<p>South Delta Improvements Program Water Resources, Department of Tracy--Contra Costa, San Joaquin, Sacramento, Alameda, Butte, ...</p> <p>The California Department of Water Resources (DWR), in coordination with the U.S. Department of the Interior (DOI), Bureau of Reclamation, proposes to implement the South Delta Improvements Program (SDIP). The SDIP is being pursued to address the needs of the Delta aquatic environment, as well as longstanding statewide, regional, and local water supply needs. Flows into and out of the Delta can have a major effect on these resources.</p>	EIR	12/27/2005

FIN	
2002032116	Lake Circuit No. 6 and 7 Line Upgrade Project Sacramento Municipal Utility District Folsom--Sacramento The proposed project consists of the reconstruction of an approximate one-mile section of an existing overhead 69,000 volt (69 kV) sub-transmission power line (Lake Circuit No. 7) and installation of a second circuit (Lake Circuit No. 6). The existing line consists of three electrical conductors (wires) supported on wood poles. Existing conductors will be replaced with a slightly larger diameter (a 0.098" increase) conductor and a second circuit (Lake Circuit No. 6) consisting of three additional conductors will be installed--for a total of 6 conductors. This upgrade line will extend from SMUD's existing Lake Substation south within an existing utility corridor to the south side of Iron Point Road where it will connect to existing underground circuits. The addition of a second circuit requires eleven existing wood poles to be replaced with slightly taller (up to 11 ft) and stronger poles. Seven concrete poles (natural gray color, armless construction), three wood poles H-Frame (two wood poles connected by steel crossarm, used for line crossings), and one steel pole (self-supporting, unguyed, angle pole) will be used. 2005111055	Material Sciences and Engineering Building University of California, Riverside Riverside--Riverside The University of California, Riverside (UCR) is proposing to construct a new Material Science and Engineering Building (UCR Project No. 950450). The building will consist of a three-story laboratory wing and a four-story classroom and office wing. The exterior of the building will be finished primarily in brick, stucco and glazing, consistent with campus structures. The proposed project would include approximately 74,000 assignable square feet (asf) (approximately 134,000 gsf) and would serve interdisciplinary programs in nanotechnology, material science, and bioengineering. The building would consist of three components providing a shared materials and nanofabrication facility, a clean room, and research laboratories, including a Biological Safety Level 3 (BSL) support space. The construction of the new building would address the need of growing programs in the College of Natural and Agricultural Sciences (CNAS), Bourns College of Engineering (BCOE), and general assignment classrooms. These core facilities would be used by both colleges (BCOE and CNAS) to address instructional and research needs. The building would also supply general classrooms including two 300-seat lecture auditoriums, research labs, academic offices, support facilities, and a clean room.	MND	12/09/2005

2005054003	Dry Creek Rancheria - Fee to Trust Project Bureau of Indian Affairs, Sacramento Area --Sonoma A fee-to-trust transfer of one 18-acre parcel and the subsequent development of tribal housing, emergency services, and agricultural development. The purpose of the proposed action is to restore the Tribe's land base and to improve the socio-economic status of the Tribe as well as provide tribal residents housing. The Tribe's intended use of the property involves eight, approximately 2,000 square foot tribal residences, an 8,000 square foot emergency services building, approximately 4.1 acres of vineyards, and a 5,600 square foot winery with tribal office space. Native plant use areas would also be identified and protected for use by tribal members, and several infrastructure projects are proposed to make developments on the proposed trust parcels possible.	FIS	12/07/2005
2005112046	Wooden Minor Subdivision Humboldt County Community Development Services Eureka--Humboldt A parcel map subdivision to create two parcels and a remainder from one legal parcel. Parcel One and Parcel Two will be 7,166 and 7,177 square feet each respectively and the remainder will be approximately 1.4 acres. Because of the historic access to the site and existing development located on proposed Parcel 1, the applicant has requested an exception to the subdivision regulations to allow the parcels to be accessed via a private easement as well as Sesame Lane, a County Road. The parcel is currently 2.18 acres in size and is developed with one single family residence and accessory structures. The existing development is, and new development will be, served by community water and sewer.	MND	12/13/2005
2005112047	Havins Minor Subdivision and Special Permit Humboldt County Community Development Services Eureka--Humboldt The Minor Subdivision of an approximately 0.85 acre parcel into two (2) parcels of +- 23,112 sf and +- 14,080 sf. Each parcel is already developed with a residence and individual leachfield. As the parcel is within the Humboldt CSD service area, the residences will be required to demo the leachlines through the appropriate Environmental Health channels and hook up to community sewer services. The majority of the parcel has slopes of <10%. Subdivision requires an exception to the access road width per 325-9 of the Subdivision Regulations. A Secondary Dwelling Unit (SDU) will be developed on proposed Parcel 2. This project includes traffic mitigation for the Walnut Drive/Hemlock Street intersection.	MND	12/13/2005
2005112050	Whole Foods Mixed Use Novato, City of Novato--Marin Mixed use project consisting of 53,675 square feet of a Whole Foods Market (38,310 sf retail area, 4,355 sf loading dock, 11,010 sf food preparation area), 125 residential units (42 one-bedroom units, 37 two-bedroom units, 2 three bedroom units and 44 townhouse units), 388 parking spaces in a multi-level structure on a 2.84 acre site located on the eastern edge of Novato downtown. Lane restriping and curb relocation to provide an additional westbound travel lane on DeLong Avenue is also proposed.	MND	12/13/2005

2005112052	Final Map Subdivision- McKenny (Neal and Wendi); FMS-04-07 Humboldt County Community Development Services Eureka--Humboldt A major subdivision of an approximately 1.88 acre parcel into eight (8) parcels ranging in size from 8,000 square feet to 9,579 square feet (net). The property is currently undeveloped. No trees are proposed to be removed as part of the subdivision. An exception is requested to allow for a 30 foot road right of way serving the properties, as well as an exception to the required lot frontage to allow for a flag lot pursuant Appendix 7-2 of the Subdivision Ordinance. Water and sewer service will be provided by the Humboldt Community Services District. This project includes traffic mitigation to address impacts at the intersection of Walnut Drive and Hemlock Street.	MND	12/13/2005
2005111065	Fontana Home Depot Retail Center Fontana, City of Fontana--San Bernardino The project consists of development of a Home Depot store and associated commercial and retail uses on a 13.7-acre vacant site. The proposed project involves construction of 138,958 square feet of floor area for the Home Depot and construction of two commercial/retail pads totaling 10,963 square feet, and associated parking and landscaped areas. The subject property is currently designated for General Commercial on both the General Plan Land Use Map (C-G) and Zoning District Map (C-2), which would allow the proposed commercial/retail uses on-site without any land use policy amendments. The proposed project approvals are anticipated to include a design review permit, a tentative parcel map, and a development agreement.	NOP	12/13/2005
2005112051	Bay Area to Central Valley High-Speed Train High Speed Rail Authority, California --Merced, Santa Clara, Alameda, San Francisco, San Mateo, ... The proposed High Speed Train system would be over 700-miles long, capable of speeds over 200 miles per hour with electrically powered trains on fully grade-separated tracks with state-of-the-art safety, signaling, and train control systems. The proposed system would connect and serve California's major metropolitan areas, extending from Sacramento and the San Francisco Bay Area through the Central Valley to Los Angeles and San Diego.	NOP	12/13/2005
2004062106	Vacu-Dry Master Use Permit Sonoma County Permit and Resources Management Department Sebastopol--Sonoma Request for a Master Use Permit, General Plan Amendment, West Sebastopol Area Plan Amendment, and Rezoning to allow continuation of an existing multi-tenant agricultural processing operation and re-use of existing vacant structures within a 310,000 square foot complex on approximately 66 acres of land located at 2064 Highway 116 North, Sebastopol.	Neg	12/13/2005
2005111058	Minor Subdivision Application No. 04071 and Minor Subdivision Application No. 05002 Merced County Los Banos--Merced Minor Subdivision Application No. 04071 proposes the division of a 112 acre agricultural parcel into four 22 acre parcels and a remainder parcel and Minor Subdivision Application No. 05002 proposes the division of a 229 acre agricultural parcel into 9 parcels of ~20 acres in size and two parcels of ~24 acres in size. <u>Documents Received on Tuesday, November 15, 2005</u>			
2005061039	Cedar Mini-Park Project Glendale, City of Glendale--Los Angeles The project proposes the development of a 23,430 square foot public mini-park. The project site would incorporate such features as open laws, trees, playground areas for young children, sitting areas, walkways, a small shade shelter, garden, security lighting, perimeter walls, and a small maintenance area. The project would involve the removal and demolition of all existing residential structures and outbuildings on the site and the removal of all mature landscaping including the garden located at 137 South Cedar Street.	EIR	12/29/2005
2004052108	Boundary Creek Subdivision Alameda County --Alameda The project is the rezone of the project site from R-1 to PD, the subdivision of a 8.25 acres into 28 lots ranging in gross size from about 3,200 to 9,500 square feet. The project is adjacent Crow Creek; the site would be accessed via a new bridge crossing the creek. Secondary emergency vehicle access would be provided via the adjacent Veronica Avenue. The subdivision would be served by all necessary infrastructure.	FIN	
2005012056	Weston Ranch Towne Center Stockton, City of Stockton--San Joaquin The project proposes a commercial development which would include up to 710,000 square feet of shopping center retail space including large retail stores, in-line shops, retail pad stores, restaurants, and fuel centers. The project also proposes parking, landscaping, and utility relocation and upgrades. The proposed project will include a general plan amendment, rezone of the site, tentative maps, development agreements, and a use permit with project plan.	NOP	12/14/2005
2005112056	Southeast Campus Integrated Projects University of California, Berkeley Berkeley--Alameda While the Southeast Campus Integrated Projects are presently in concept development, or in the pre-schematic stage of architectural design, program parameters have been established for the projects which, together with the general design guidelines prescribed in the 2020 LRDP and the design review process indicated in the Long Range Development Plan, will serve as the basis for the environmental analysis.	NOP	12/14/2005
2005111034	Mira Mesa / Miramar College Transit Center San Diego Association of Governments San Diego--San Diego The proposed transit center consists of the development of a 2-acre bus transit center and adjacent four-lane access road segment within the Miramar College Campus. The transit center would consist of eight bus bays and associated transit furnishings.	Neg	12/14/2005
2005111067	Proposed Site Plan SP-05-050 & Parcel Map PM-05-032 Victorville, City of Victorville--San Bernardino To allow for the development of an office/business park and a parcel map to divide the 35.73 acre property into 19 individual parcels.	Neg	12/14/2005

2005111068	<p>Hotel Terrace Long-Term Stay Business Hotel Santa Ana, City of Santa Ana--Orange</p> <p>The proposed project is a request for a zoning ordinance amendment to conditionally allow long-term stay business hotels within Specific Development Area SD-12. Concurrently, there is a request for a conditional use permit to convert an existing hotel within Specific Development Area SD-12 to a long-term stay business hotel and a request for variance to reduce the parking requirement for the long-term stay business hotel by 15 parking spaces. Additionally, because the proposed project is located within a Specific Plan Zone, the project would require site plan approval.</p>	Neg	12/14/2005
2005111069	<p>Escondido Sewer Outfall Operations and Maintenance Activities (ER-2004-43) Escondido, City of Escondido, San Diego, Encinitas--San Diego</p> <p>The existing Escondido Sewer Outfall extends for approximately 14.2 miles from the Hale Avenue Resource Recovery Facility (HARRF) in the City of Escondido, through an unincorporated County area, to the San Elijo Ocean Outfall, in the City of Encinitas. The project involves Operations and Maintenance (O&M) activities associated with the Escondido Sewer Outfall alignment as necessary to ensure the safe and reliable operation of the City of Escondido's sewer outfall and to ensure compliance with federal and state laws for O&M and emergency procedures and standards. Typical O&M activities include, but are not limited to:</p> <ul style="list-style-type: none"> - Protection and maintenance of the sewer outfall where it crosses Escondido Creek - Repair of channel banks or bottoms where the pipeline is exposed - Repair of broken culverts - Removal of debris clogs from the riparian corridor, including fallen trees - Periodic vegetation clearing to maintain pedestrian or vehicle access at key locations - Protection or repair of cathodic protection devices (i.e., rectifiers and test stations) - Maintenance of existing access roads <p>O&M activities will be conducted in accordance with protocols established to avoid and minimize impacts to environmental resources.</p>	Neg	12/14/2005
2005111070	<p>City of Dinuba Water Well No. 18 Dinuba, City of Dinuba--Tulare</p> <p>The City of Dinuba is proposing to construct a domestic water well and appurtenant pumping facilities in conformance with the adopted General Plan and Water Master Plan.</p>	Neg	12/14/2005
2005112054	<p>POST Driscoll Ranch Addition to La Honda Creek Open Space Reserve Midpeninsula Regional Open Space District --San Mateo</p> <p>The project consists of purchase of the 3,681-acre POST Driscoll Ranch by the Midpeninsular Regional Open Space District. The project also includes continuation of grazing under the terms of a Resource Management Plan. The property will remain closed to the public pending future development of a Master Plan.</p>	Neg	12/14/2005

2005112055	Coyote Parkway Freshwater Wetland Santa Clara Valley Water District San Jose--Santa Clara The project would provide 7 acres of freshwater wetland habitat to compensate for impacts from the District's Multi-year Stream Maintenance Program.	Neg	12/14/2005
1997072028	Blue Rock Country Club Hayward, City of Hayward--Alameda The Department of Fish and Game is approving a minor amendment to the incidental take permit it issued in 2000 for construction of a golf course, approximately 600 housing units, and associated facilities. The project may result in take of the Alameda whipsnake, which is protected under the California Endangered Species Act.	NOD	
2002091076	Alameda Creek Tributary Double Box Culvert Union City Union City--Alameda The site is located east of Decoto Road in the City of Union City in Alameda County. The project is to redevelop approximately 61 acres with 119 single-family homes, 218 townhouses, and office/industrial. SAA #1600-2005-0660-3.	NOD	
2003021012	Marina Heights Project/Abrams "B" Housing Project Marina, City of Marina--Monterey The project is a residential subdivision that will consist of 1,050 housing units within 248 acres of former Fort Ord. This project will result in impacts to sand gilia (<i>Gilia tenuiflora</i> ssp. <i>areanaria</i>), a species designated as threatened under the California Endangered Species Act.	NOD	
2003062090	Oleander Lane Land Division, Novato Novato, City of Novato--Marin The proposed project involves the development (grading/ cut and fill/ road construction) of four lots for residential use. In particular, the project operator proposes to widen the extension of Oleander Lane which will involve activities within an unnamed stream including construction of retaining walls and installation of a "storm water detention basin" requiring the placement of three 46-foot culverts (diameters of 8", 12", and 18" respectively) in the unnamed stream. SAA #1600-2005-0474-3.	NOD	
2005082051	Elk Grove Boulevard Roadway Improvements Project at Valley Hi Country Club Elk Grove, City of Elk Grove--Sacramento The proposed project would the addition of a modified roadway section measuring 38 feet from the existing median curb to the back of curb with a 5-foot detached sidewalk behind a main stand of trees. The lane segment would extend from Laguna Lake Way to approximately 2,400 feet west. A bicycle lane, sidewalk, curb/gutter, and stormwater drainage facility along the westbound segment of Elk Grove Boulevard between Laguna Lake Way and Franklin Boulevard would also be added. Most work would take place within the roadway right-of-way in the City of Elk Grove, with small amounts of right-of-way required for sidewalk completion. The project would include: Grading, drainage modifications and installation, pavement installation, new	NOD

	sidewalk, installation of roadside lighting, tree removal, and road re-stripping.		
2005082062	Point Arena Mountain Beaver Habitat Protection Project Parks and Recreation, Department of --Mendocino The Department of Parks and Recreation proposes to relocate a campground and improve trails within Manchester State Park to expand Point Arena mountain beaver (PAMB) habitat. Phase 1 describes project components that will be implemented within the next two calendar years. Phase 2 includes mid- and longer term proposals for additional campground and trail enhancements to further improve PAMB habitat.	NOD	
2005082123	Temporary Closure of Strobbridge Avenue at Gary Drive to Exclude Southbound Through-Traffic, Castro Valley Alameda County Public Works Agency --Alameda The project would consist of constructing a raised bulb-out and installing "Do Not Enter" and "Wrong Way" signs on Strobbridge Avenue near the southwesterly corner of Gary Drive within the roadway to block southbound traffic from entering the section of Strobbridge Avenue to the south of Gary Drive. Northbound through-traffic on Strobbridge Avenue at the same location would remain open, and southbound traffic on Strobbridge Avenue just south of Gary Drive would remain open to local traffic only. The project would also include roadway striping and the addition of a U-turn lane for southbound vehicles on Strobbridge Avenue at the corner of Gary Drive.	NOD	
2005092039	Donald L. and Maryellen Baird Tentative Parcel Map (TPM-05-05) Siskiyou County Planning Department Yreka--Siskiyou The applicants request Tentative Parcel Map approval to divide a 172.95 acre parcel into four parcels, 40.3 acres, 40.5 acres, 40.4 acres and 51.75 acres in size. The property is located within the AG-1 (Prime Agriculture) zoning district.	NOD	
2005118252	Cambridge Road/Merrychase Drive/U.S. 50 Intersection Improvements Project El Dorado County --El Dorado This product involves the installation of a four-way traffic signal and striping for separated turn lanes at the approaches to the intersection of Cambridge Road/Merrychase Drive/U.S. 50 westbound ramps. Minor amounts of additional pavement would be required at the existing roadway shoulder to accommodate the improved intersection.	NOE
